

2026 Neuraceq® Reimbursement Information (florbetaben F18 injection)

Suggested Coding – HOPPS and MPFS Part B

Neuraceq® is a radioactive diagnostic agent indicated for Positron Emission Tomography (PET) imaging of the brain to estimate beta-amyloid neuritic plaque density in adult patients with cognitive impairment who are being evaluated for Alzheimer's disease (AD) and other causes of cognitive decline. Neuraceq® is an adjunct to other diagnostic evaluations. The most commonly reported adverse reactions were injection site reaction consisting of erythema, irritation, and pain.

For complete prescribing information, please review our US Prescribing Information at <https://neuraceq.com>.

Suggested Coding and Payment Information

Amyloid PET Coverage is determined by the local Medicare Administrative Contractors and Commercial/Private Payer policies.

In order to receive adequate reimbursement, claims must include the appropriate HCPCS code for the product and the appropriate CPT code for the procedure. Medicare (and most other third-party payers) require the National Drug Code (NDC) for Neuraceq®: **54828-0001-50**.

Medicare Coding Guidelines

NDC	DESCRIPTION		
54828-0001-50	Neuraceq® Florbetaben F18 diagnostic (1 billing unit for 8.1 millicuries per study)		
HCPCS CODE	DESCRIPTION	HOPPS	MPFS
Q9983	Florbetaben F18 diagnostic, per study dose, up to 8.1 millicuries	Reference HOPPS Addendum B ¹	MPFS rate released annually
CPT CODES	DESCRIPTION	HOPPS	MPFS
78811	PET imaging; limited area		
78814	OR PET imaging with concurrently acquired Computed Tomography (CT) for attenuation correction and anatomical localization; limited area	Reference HOPPS Addendum B ¹	MPFS rate released annually

HOPPS: Hospital Outpatient Prospective Payment System

MPFS: Medicare Physician Fee Schedule

¹Based on the Medicare Hospital Outpatient Department Prospective Payment System Addendum B (January 2026), available online: <https://www.cms.gov/medicare/payment/prospective-payment-systems/hospital-outpatient-pps/quarterly-addenda-updates>

The information within this document is based upon coding experience of current general coding practices. The listing of codes does not guarantee coverage or payment for any procedure or imaging agent by any payer. The final decision for coding of any procedure must be made by the provider of care after assessing the medical necessity of the services and supplies provided along with local, state, and/or federal laws and/or regulations that may apply. The coding and payment data within this document are for informational purposes only. Coding and payment data herein should not be relied upon for the purposes of determining payer coverage and/or coding for a specific case or claim for payment. Providers should refer to authoritative coding sources, such as the Common Procedural Terminology (CPT) codes and/or Healthcare Common Procedure Coding System (HCPCS) codes.
